

Agreement # _____

FUEL MITIGATION AGREEMENT

This Fuel Mitigation Agreement is entered this ____ day of _____, 20__ between the Upper Pine River Fire Protection District (hereafter the District) and _____ (hereafter Property Owner).

Objective

The objective of property fuel mitigation is to create a defensible space for fire fighting around dwellings and outbuildings. The success of mitigation is reliant on the property owner taking reasonable measures to maintain post mitigation conditions.

Scope of Work

The services provided by the District under this agreement will be provided at the service location defined in Schedule A of this document and are as follows.

- Remove surface fuels that would support vertical fire spread
- Remove trees to allow adequate spacing to inhibit the spread of fire through the trees
- Conduct prescribed burns as deemed necessary to reduce or remove built up duff and organic material
- Mechanically chip and remove piles created by or from the mitigation efforts

Project Approach

In order to complete the mitigation objective, property is mitigated in two phases.

Phase I

Phase I commences upon receipt of a signed mitigation agreement. This portion of the service includes the following:

- Removal of surface fuels that would support vertical fire spread
- Removal of trees and branches allowing adequate spacing to inhibit the spread of fire through the trees

Phase II

Phase II concludes the scope of services and is defined by the following:

- Mechanically chip and remove piles created by or from the mitigation efforts
- Conduct prescribed burns as deemed necessary to reduce or remove built up duff and organic material

Requirements

The following conditions must be met by the property owner prior to commencement of services

- Provide reasonable access for staff and equipment
- Remove any personal property and/or animals that may be affected by the service

Engagement

The engagement commences based on the completion and signature of Schedule (A) attached. The Schedule (A) details the scope of work specific to the property and information regarding the financially responsible party.

Schedule A

Fuel mitigation service fee: _470.00 per acre_____

Applicable grant funds: _470.00 per acre_____
